Advisory Business

Firm Description

HOLLY P. THOMAS LLC, was founded in 2006.

HOLLY P. THOMAS LLC provides personalized confidential financial planning to individuals, trusts, estates, charitable organizations and small businesses. Advice is provided through consultation with the client and may include: determination of financial objectives, identification of financial problems, cash flow management, tax planning, insurance review, asset allocation, education funding, retirement planning, and estate planning. The scope of the comprehensive financial planning process may vary depending upon various factors, including the client's specific circumstances, needs and/or objectives.

HOLLY P. THOMAS LLC is strictly a fee-only financial firm. The firm does not sell annuities, insurance, stocks, bonds, mutual funds, limited partnerships, or other commissioned products. The firm is not affiliated with entities that sell financial products or securities. No commissions in any form are accepted. No finder's fees are accepted.

Investment advice is an integral part of financial planning. In addition, HOLLY P. THOMAS LLC advises clients regarding cash flow, college planning, retirement planning, tax planning and estate planning.

Investment advice is provided, with the client, or the client's investment manager, making the final decision on investment selection. HOLLY P. THOMAS LLC does not act as a custodian of client assets. The client always maintains asset control.

After the initial meeting, a written evaluation of each client's initial situation is provided to the client, often in the form of a net worth statement. Periodic reviews are also communicated to provide reminders of the specific courses of action that need to be taken. More frequent reviews occur but are not necessarily communicated to the client unless immediate changes are recommended.

Other professionals (e.g., lawyers, accountants, insurance agents, etc.) are engaged directly by the client on an as-needed basis. Conflicts of interest will be disclosed to the client in the unlikely event they should occur.

The initial meeting, which may be by telephone, is considered an exploratory interview to determine the extent to which financial planning may be beneficial to the client.

Principal Owners

Holly P. Thomas is the Managing Member and sole Member of Holly P. Thomas, LLC.

Types of Advisory Services

HOLLY P. THOMAS LLC furnishes financial planning and investment advice through consultations.

On more than an occasional basis, HOLLY P. THOMAS LLC furnishes advice to clients on matters not involving securities, such as financial planning matters, taxation issues, and trust services that often include estate planning.

Tailored Relationships

The goals and objectives for each client are documented in our client management system.

Agreements may not be assigned without client consent.

Types of Agreements

The following agreements define the typical client relationships.

Financial Planning Agreement

A financial plan is designed to help the client with all aspects of financial planning without ongoing investment management after the financial plan is completed.

The financial plan may include, but is not limited to: a net worth statement; a cash flow statement; a review of investment accounts, including reviewing asset allocation and providing repositioning recommendations; strategic tax planning; a review of retirement accounts and plans including recommendations; a review of insurance policies and recommendations for changes, if necessary; one or more retirement scenarios; estate planning review and recommendations; and education planning with funding recommendations.

Implementation of the recommendations is at the discretion of the client.

The fee for a financial plan is predicated upon the facts known at the start of the engagement. The *fee range is \$3,500 to \$20,000 and is negotiable.*

In the event that the client's situation is substantially different than disclosed at the initial meeting, a revised fee will be provided for mutual agreement.

The client must approve the change of scope in advance of the additional work being performed when a fee increase is necessary.

Advisory Service Agreement

HOLLY P THOMAS LLC does not engage in investment advisory services as a separate service and therefore does not provide Advisory Service Agreements.

Retainer Agreement

In some circumstances, a *Retainer Agreement* is executed in lieu of an Hourly Planning Engagement when it is more appropriate to work on a fixed-fee basis. The annual fee for a *Retainer Agreement* is \$5,000 - \$17,000 and is *negotiable*.

Investment Management Agreement

HOLLY P THOMAS LLC does not provide Investment Management services and therefore does not provide Investment Management Agreements.

Hourly Planning Engagements

HOLLY P. THOMAS LLC provides hourly planning services for clients who need advice on a limited scope of work. The hourly rate for limited scope engagements is \$270 - \$550, depending upon the type of work.

Wrap Fee Programs

HOLLY P. THOMAS LLC does not participate in any wrap fee programs.

Asset Management

HOLLY P. THOMAS LLC does not provide asset management services. The firm will oversee the implementation of asset allocation recommendations with a third-party investment manager chosen by the client.

Assets are recommended to be invested primarily in no-load or low-load mutual funds and exchange-traded funds, usually through discount brokers or fund companies. Fund companies charge each fund shareholder an investment management fee that is disclosed in the fund prospectus. Discount brokerages may charge a transaction fee for the purchase of some funds.

Stocks and bonds may be purchased or sold through a brokerage account when appropriate. The brokerage firm charges a fee for stock and bond trades. HOLLY P. THOMAS LLC does not receive any compensation, in any form, from fund companies, broker-dealers, or registered representatives of broker-dealers, for trades of stocks and bonds.

Investments may also include: equities (stocks), warrants, corporate debt securities, commercial paper, certificates of deposit, municipal securities, investment company securities (variable life insurance, variable annuities, and mutual funds shares), U. S. government securities, options contracts, futures contracts, and interests in partnerships.

Initial public offerings (IPOs) are not available through HOLLY P. THOMAS LLC.

Termination of Agreement

A Client may terminate any of the aforementioned agreements at any time by notifying HOLLY P. THOMAS LLC in writing and paying the rate for the time spent on the investment advisory engagement prior to notification of termination. If the client made an advance payment, HOLLY P. THOMAS LLC will refund any unearned portion of the advance payment.

HOLLY P. THOMAS LLC may terminate any of the aforementioned agreements at any time by notifying the client in writing. If the client made an advance payment, HOLLY P. THOMAS LLC will refund any unearned portion of the advance payment.

Fees and Compensation

Description

HOLLY P. THOMAS LLC bases its fees on hourly charges and/or fixed fees.

Retainer Agreements and Financial Plans are priced based on the complexity of work, and the complexity of the client situation.

Fees are *negotiable*.

Fee Billing

HOLLY P. THOMAS LLC requires a fee of \$495 - \$585 due at the initial meeting. Clients choose their own payment schedules – monthly, quarterly, semi-annually - for financial plans and retainers. Hourly engagement billings are due within 30 days.

HOLLY P THOMAS LLC does not deduct fees from client accounts.

Other Fees

Custodians may charge transaction fees on purchases or sales of certain mutual funds and exchange-traded funds. These transaction charges are usually small and incidental to the purchase or sale of a security. The selection of the security is more important than the nominal fee that the custodian charges to buy or sell the security.

Expense Ratios

Mutual funds generally charge a management fee for their services as investment managers. The management fee is called an expense ratio. For example, an expense ratio of 0.50 means that the mutual fund company charges 0.5% for their services. These fees are in addition to the fees paid by you to HOLLY P. THOMAS LLC.

Performance figures quoted by mutual fund companies in various publications are after their fees have been deducted.

Past Due Accounts and Termination of Agreement

HOLLY P. THOMAS LLC reserves the right to stop work on any account that is more than 30 days overdue. In addition, HOLLY P. THOMAS LLC reserves the right to terminate any financial planning engagement where a client has willfully concealed or has refused to provide pertinent information about financial situations when necessary and appropriate, in HOLLY P. THOMAS LLC's judgment, to providing proper financial advice. Any unused portion of fees collected in advance will be refunded within 15 days.

Performance-Based Fees

Sharing of Capital Gains

Fees are not based on a share of the capital gains or capital appreciation of managed securities.

HOLLY P. THOMAS LLC does not use a performance-based fee structure because of the potential conflict of interest. Performance-based compensation may create an incentive for the adviser to recommend an investment that may carry a higher degree of risk to the client.

Types of Clients

Description

HOLLY P. THOMAS LLC generally provides investment advice to individuals, trusts, estates, charitable organizations and small businesses.

Client relationships vary in scope and length of service.

Account Minimums

HOLLY P. THOMAS LLC does not require a minimum account size.

Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

Security analysis methods may include fundamental analysis, technical analysis, and cyclical analysis, depending upon the investment manager chosen by the client.

The main sources of information include financial newspapers and magazines, research materials prepared by others, corporate rating services, annual reports, prospectuses, filings with the Securities and Exchange Commission, and company press releases.

Other sources of information that HOLLY P. THOMAS LLC may use include Morningstar Principia mutual fund information, Morningstar Principia stock information, and the World Wide Web.

Investment Strategies

The primary investment strategy used on client accounts is dependent upon the investment manager chosen by the client. We most commonly favor investment managers who use strategic asset allocation. This means they utilize a core and satellite approach, where they use passively-managed index and exchange-traded funds as the core investments, and then add actively-managed funds or individual securities where there are greater opportunities to make a difference. Portfolios are globally diversified to control the risk associated with traditional markets.

The investment strategy for a specific client is based upon the objectives stated by the client during consultations. The client may change these objectives at any time.

Other strategies may include long-term purchases, short-term purchases, trading, short sales, margin transactions, and option writing (including covered options, uncovered options or spreading strategies).

Risk of Loss

All investment programs have certain risks that are borne by the investor. Our investment approach constantly keeps the risk of loss in mind. Investors face the following investment risks:

- **Interest-rate Risk:** Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.
- **Market Risk:** The price of a security, bond, or mutual fund may drop in reaction to tangible and intangible events and conditions. This type of risk is caused by external factors independent of a security's particular underlying circumstances. For example, political, economic and social conditions may trigger market events.
- **Inflation Risk:** When any type of inflation is present, a dollar today will not buy as much as a dollar next year, because purchasing power is eroding at the rate of inflation.
- **Currency Risk:** Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.
- **Reinvestment Risk:** This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e. interest rate). This primarily relates to fixed income securities.
- **Business Risk:** These risks are associated with a particular industry or a particular company within an industry. For example, oil-drilling companies depend on finding oil and then refining it, a lengthy process, before they can generate a profit. They carry a higher risk of profitability than an electric company, which generates its income from a steady

stream of customers who buy electricity no matter what the economic environment is like.

- **Liquidity Risk:** Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.
- **Financial Risk:** Excessive borrowing to finance a business' operations increases the risk of profitability, because the company must meet the terms of its obligations in good times and bad. During periods of financial stress, the inability to meet loan obligations may result in bankruptcy and/or a declining market value.
